30-day Electrical Testing Connection Application

The property owner or General Contractor **AND** the Electrical Contractor of the property identified below must complete this application.

Request is hereby made to connect electrical power for a period not to exceed 30 days, for the purpose of equipment testing. It is acknowledged that approval of temporary power for this site is in no way a release of this property for permanent use or occupancy. It is further acknowledged that use of this property without proper authorization will result in an immediate disconnection of electrical service pursuant to the Florida Building Code.
