

Building Utilization Report

A local government entity may provide a schedule of reasonable inspection fees in order to defer the costs of inspection and enforcement of the Florida Building Code. The local government entity's fees must be used solely for carrying out that local government entity's responsibilities in enforcing the Florida Building Code. Pursuant to [Florida Statute 553.80](#), by Dec. 31 of each year, the governing body of a local government that provides a schedule of fees shall create a building permit and inspection utilization report and post the report on its website.

The City's fiscal year begins on Oct. 1 and ends on Sept. 30. The information provided below has been derived from relevant information available from the most recently completed financial audit.
