March 24, 2017

Honorable Mayor,
Members of the City Commission and
Residents of the City of Parkland, Florida

State law requires that every general-purpose local government publish within nine months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States (GAAP) and audited in accordance with auditing standards generally accepted in the United States, and government auditing standards by a firm of licensed certified public accountants. The report has been prepared by the City's Finance Department, with the assistance of the independent auditors, Alberni, Caballero & Fierman, LLP. Pursuant to these requirements, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the City of Parkland for the fiscal year ended September 30, 2016.

This report consists of management's representations concerning the finances of the City of Parkland. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial statements of the governmental activities and various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The report includes all governmental activities and funds of the City and, in accordance with generally accepted accounting principles, only those legally separate entities for which the City is financially accountable. While the Broward County Board of County Commissioners, Broward County School Board, South Florida Water Management District, Florida Inland Navigation District, Children's Services Council of Broward County, and North Broward Hospital District levy and collect taxes on property located within the corporate limits of the City, the City is not financially accountable for these entities. Therefore, financial information of these taxing authorities is not included in this report. Annual financial reports on these entities are available on request from each board, district or council.

This letter of transmittal is designed to complement the Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The MD&A immediately follows the Independent Auditors' Report and provides a narrative introduction, overview and analysis of the basic financial statements.

Profile of the Government

The City of Parkland, Florida (the "City") is located in northwest Broward County adjacent to the cities of Coral Springs, Coconut Creek and the Broward/Palm Beach County border. The City has been developed slowly and deliberately, reflecting the deep commitment of the residents, elected officials, management, and developers to the preservation of the pristine state of the region which includes the significant natural habitat of plants and wildlife. The population is 28,128 and the median age is 39.5. There are 8,888 dwelling units with 7,439 single family and 1,449 multifamily.

The City operates under a Commission-Manager form of government, comprised of five elected officials, the Mayor and four Commissioners. The Mayor is elected at-large and the Commissioners are elected by districts. The City Commission determines policy, adopts legislation, and approves the City's annual budget. The City Commission appoints the City Manager who is responsible for the daily operations and ensuring all ordinances and resolutions are adhered to.

Profile of the Government (Continued)

The City is viewed as a prestigious, semi-rural community and is a suburban part of Fort Lauderdale's Standard Metropolitan Statistical Area (SMSA). The City's highly rated schools and proximity to the Sawgrass Expressway and Florida's Turnpike, coupled with the natural beauty of the region help make the City a highly desirable residential area. Currently, a variety of residential developments are in place including single family and multi-family alternatives. Additional new residential developments are planned as the City continues to develop vacant land. There are four commercial properties totaling approximately 61 acres that have been developed: Parkland Commons, Parkland Village, The Waterways and Riverstone Shops. This added upscale commercial development will diversify the City's economic base. Commercial development comprises only 0.8% of total land use.

Economic Conditions and Outlook

Parkland is an affluent, upscale residential community with low density housing, outstanding recreational facilities, and excellent schools. The median value of a Parkland home is approximately \$589,800. The median value is significantly higher than the median house price in Broward County of \$223,600.

Housing foreclosures are becoming less of an issue for Florida as a whole. Florida's active foreclosure inventory fell by 40% in 2016, marking four consecutive years of 38% or larger declines. Florida is the only state having such sustained improvement over this time period. One problem is that the average foreclosure proceeding in Florida takes 1,186 days from start to finish. However, going forward, the foreclosure inventory is expected to normalize by the end of the 2018 calendar year. The improvement of the South Florida economy should help reduce the number of foreclosed properties.

The overall housing market for Florida is generally improving. In the preliminary data for the 2016 calendar year, single-family building permit activity increased by 12.4% over the prior year, falling below the 2015 annual growth rate. Existing home sales volume in both 2014 and 2015 exceeded the 2005 peak year. While the preliminary data for 2016 indicates that it did as well, the sales activity was slightly lower relative to 2015.

Population growth is the state's primary engine of economic growth, fueling both employment and income growth. Near the end of 2015, Florida surpassed the 20 million population mark. Florida's population growth is expected to remain above 1.5% over the next few years. Most of Florida's population growth through 2030 will be from net migration.

During 2016-2019, Florida's economy, as measured by Real Gross State Product, is expected to expand at an average annual rate of 3.7%, and that payroll job growth will average an annual pace of 2.6%. Both remain over 1 percentage point greater than the pace expected for the national economy.

The Bureau of Labor Statistics (BLS) releases local inflation rates every two months and the national inflation rate every month. This rate is calculated by the BLS using the Consumer Price Index (CPI). The CPI produces monthly data based upon changes in the prices paid by consumers for goods and/or services. South Florida's 2016 inflation rate has increased by 2.9% compared to 2015. The South Florida CPI increase is slightly higher than the national increase of 2.1%.

For the 3rd quarter of 2016, Florida was ranked 22nd in the country with personal income growth that was nearly equal to the national average of 1.1%. Parkland continues to show strong household income as the median family income for 2016 was \$130,107 compared to \$51,968 for Broward County.

For December 2016, the national unemployment rate was 4.7%. Florida's unemployment rate of 4.9% is 0.2% lower than December 2015. Miami-Dade County has an unemployment rate of 5.4%, down from 5.8% a year ago. Broward County has the lowest area unemployment rate at 4.4%, which is the same as December 2015. Palm Beach County's unemployment rate is 4.7%, which is up from 4.5% a year ago.

Local Economy

Taxable Values:

- On July 1st the Broward County Property Appraiser's Office provided taxable values to all taxing authorities. The City had an increase of 11.9% or \$453 million in taxable value. This increase is a combination of new taxable value and current values increasing. This increase resulted in an additional \$1.6 million in ad valorem revenue. This is the 5th consecutive year that taxable values have increased. We anticipate that future years will have similar if not higher growth due to new development.
- Parkland's quality of life will continue to make Parkland a very desirable place to live. The City is one of the few cities in Broward County that will experience new growth due to new development. The "Wedge" is a 1,949 acre wedge-shaped property that was transferred from Palm Beach County to Broward County. The City has annexed 1,132 acres and development is already underway. The Wedge, once developed, will have a projected 3,115 new single family homes. This development is expected to bring in approximately \$5 million in new ad valorem revenue during the next ten years.

Financial Strategy

The City has emerged from the recent recession in an enviable position. Fiscal year 2016 taxable values exceeded the \$3.7 billion pre-recession levels for the first time. New home construction continues and real estate values in Parkland have increased. As a result of the City's continued dedication to fiscal responsibility and effective management through persistence, cooperation and creativity, the City is financially sound. During fiscal year 2016, the City used cash reserves of approximately \$1.8 million to pay off our Florida Municipal Loan Council debt obligation. We are fiscally optimistic regarding the future. The focus of the 2017 budget is to ensure the long-term financial viability of Parkland while maintaining our capital infrastructure investment in this current economic environment.

As mentioned, the City experienced an increase in taxable values and will continue to have growth with new development. Parkland is a growing community and we are anticipating adding over 2,000 new homes over the next 5-7 years. With this growth, change is inevitable and these changes have transformed the way Parkland operates. Growth and change, and their impact on the present and future of Parkland, are concerns of both the residents and the current administration. Parkland's Elected Officials have implemented various policies to maintain the City's existing character while dealing with the impacts from growth. This includes enacting projects that enhance City services, beautification and public safety.

Parkland continues to be in excellent financial health. City staff's ability to control expenditures the last several years in combination with conservative revenue forecasts has allowed the General Fund to accrue a healthy fund balance. With such strong financial position, the City can maintain excellent services to our residents while undertaking a steady amount of significant projects to improve our community. The City is able to pay for significant non-recurring expenditures, such as infrastructure investments and capital replacements using a "pay as we go" strategy. Additionally, the City is contributing to its infrastructure and capital replacement funds to ensure that needs of future maintenance of buildings and equipment purchases are met.

The millage rate for 2017 decreased slightly. The City is able to maintain its stabilization/operating reserve at twenty-five percent (25%) of the General Fund Operating Budget. This reserve is for unforeseen economic conditions and potential natural disasters (hurricanes). We have manageable debt payments, well within the debt service limitation, and will continue to fund major capital projects with the appropriate mix of low-cost debt or by utilizing cash reserves. We will continue to be financially sound with every budget that is balanced, spending within our means and being financially responsible to the citizens of Parkland.

It is anticipated that the City will remain in good financial condition throughout the next fiscal year. While not immune from the impacts of the national and state economy, Parkland is continuing to see positive signs in the local economy. The FY 2017 budget will allow the City to allocate resources to strategic projects that will achieve the City Commission's goals and priorities. The 2017 budget will be a roadmap to making real progress in areas of improving safety, planning for growth while preserving Parkland's character, ensuring movement through Parkland, maintaining financial sustainability, and providing environmental enhancements. The targeted investments we make today will benefit the residents, businesses and the City workforce for years to come.

Major Initiatives

The City continues to fund capital improvement projects to maintain and improve City facilities. The most notable FY 2017 capital projects are as follows:

- East Marsh Parking Lot Trail: This project involves the design and construction of an employee parking lot and connector road at the south side of Riverglades Elementary.
- Terramar Park Fields: This project involves building two additional multi-use fields at Terramar Park to meet the needs of football, soccer, and lacrosse.
- Camp Telogia: This project involves the purchase of the Camp Telogia property and then secure and properly maintain it until the property is planned and open to the public.
- Artificial Turf Replacement: This project involves replacing two artificial turf fields at Pine Trails Park. These replacements will provide ample first class sports and athletic fields for games and practice.

Relevant Financial Policies

In the development and evaluation of the City's accounting and financial reporting systems, consideration is given to the adequacy and accuracy of the internal accounting controls. These controls are designed to provide reasonable, but not absolute, assurance that the assets of the City are safeguarded against loss from unauthorized use or disposition and that there are reliable financial records for the preparation of financial statements and for the accountability of those assets. The City has adopted comprehensive financial policies that enhance and supplement its system of internal accounting controls to safeguard the assets of the City and provides reasonable assurance of the proper recording of financial transactions. We believe the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of the proper recording of financial transactions.

Operating Budget Policy

The City maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Commission. All funds are required to balance. Total anticipated revenues must equal the sum of budgeted expenditures for each fund. Current anticipated revenues must be sufficient to support current expenditures. The level of budgetary control is maintained by the City Manager at the departmental level within an individual fund. Any changes made outside the department level control must be approved by City Commission.

Stabilization/Operating Reserves Policy

For Fiscal Year 2016, the City's policy is to maintain operating reserves at 25% of the General Fund operating budget, less any transfers and contingency amount. A variety of factors were considered in determining the appropriate operating reserve level. Major circumstances include economic stabilization for unforeseen economic conditions and potential natural disaster, especially hurricanes, which could affect the City. The City was in compliance with this reserve requirement for FY 2016, in which, the City's stabilization/operating reserves are \$7,144,000, or 3 months of operating expenditures. During fiscal year 2016, the City increased the reserve requirement to 25% of the General Fund operating budget. This increase was deemed necessary due to population growth and increased service demands. The 25% stabilization reserve will be maintained going forward in to fiscal year 2017 and beyond.

Capital Improvement Program Policy

The City adopts an annual Capital Improvement Plan that is directly linked to the City's Strategic Plan. It is the City's policy to determine the most prudent financial method for funding its Capital Improvement Program. When possible, the City shall use cash reserves to pay for capital expenditures. In fiscal year 2016, impact fee revenues were primarily used to pay for the debt service related to the Western Fire Station and Pine Trails Park. During fiscal year 2017, cash reserves and impact fee collections will be utilized to pay for all Capital Improvement Program expenditures. Additionally, for fiscal year 2017, existing cash reserves will be used to fund all fleet replacement and infrastructure replacement program expenditures.

Relevant Financial Policies

Cash Management and Investments Policy

The City follows its adopted investment policy when handling public funds. The intent of this policy is to 1) ensure the preservation of principal, 2) maintain sufficient cash flow to enable the City to meet its obligations, and 3) maximize the return on assets with acceptably low exposure to risk. The investment policy meets the requirements of Florida Statutes, Section 218.415.

All temporarily idle funds are centrally managed through the use of a pooled cash and investment account. The funds available for investment of this nature average approximately \$35 million for the year and provided interest income totaling approximately \$69,000. The City utilizes SunTrust Bank and the Florida State Board of Administration Local Government Investment Pool, which was created under Florida Statute Chapter 218, Part IV, to promote the maximization of net interest income on invested surplus funds. Investment earning remained low in 2016, however, future improvements are expected as the Federal Reserve has increased interest rates.

Debt Management Policy

The City reviews its outstanding debt annually. The financing term of capital projects shall not exceed the average useful life of the project that is being financed. These projects shall be major projects and shall be financed only when unassigned fund balance is not available. During fiscal year 2016, the City used existing cash reserves to pay off its Florida Municipal Loan Council obligation of approximately \$1.8 million. Over the remaining term of the obligation, the City will save over \$400,000 in future interest costs. For fiscal year 2016, the City is in compliance with its debt management policy.

Other Information

Independent Audit

In accordance with Section 218.32, Florida Statutes, the City engaged the services of the firm, Alberni Caballero & Fierman, LLP, to perform the independent audit of the City's accounts and records. The independent auditors' report is included in the Financial Section.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to City of Parkland, Florida, for its comprehensive annual financial report for the fiscal year ended September 30, 2015.

In order to be awarded a Certificate of Achievement, a governmental must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for twenty-six consecutive years including the fiscal year ended September 30, 2015. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA.

Acknowledgments

The preparation of this report would not have been possible without the efficient and dedicated services of the Finance Department. We would like to express our appreciation to all members of this department who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor and Commission for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Parkland's finances.

Respectfully submitted,

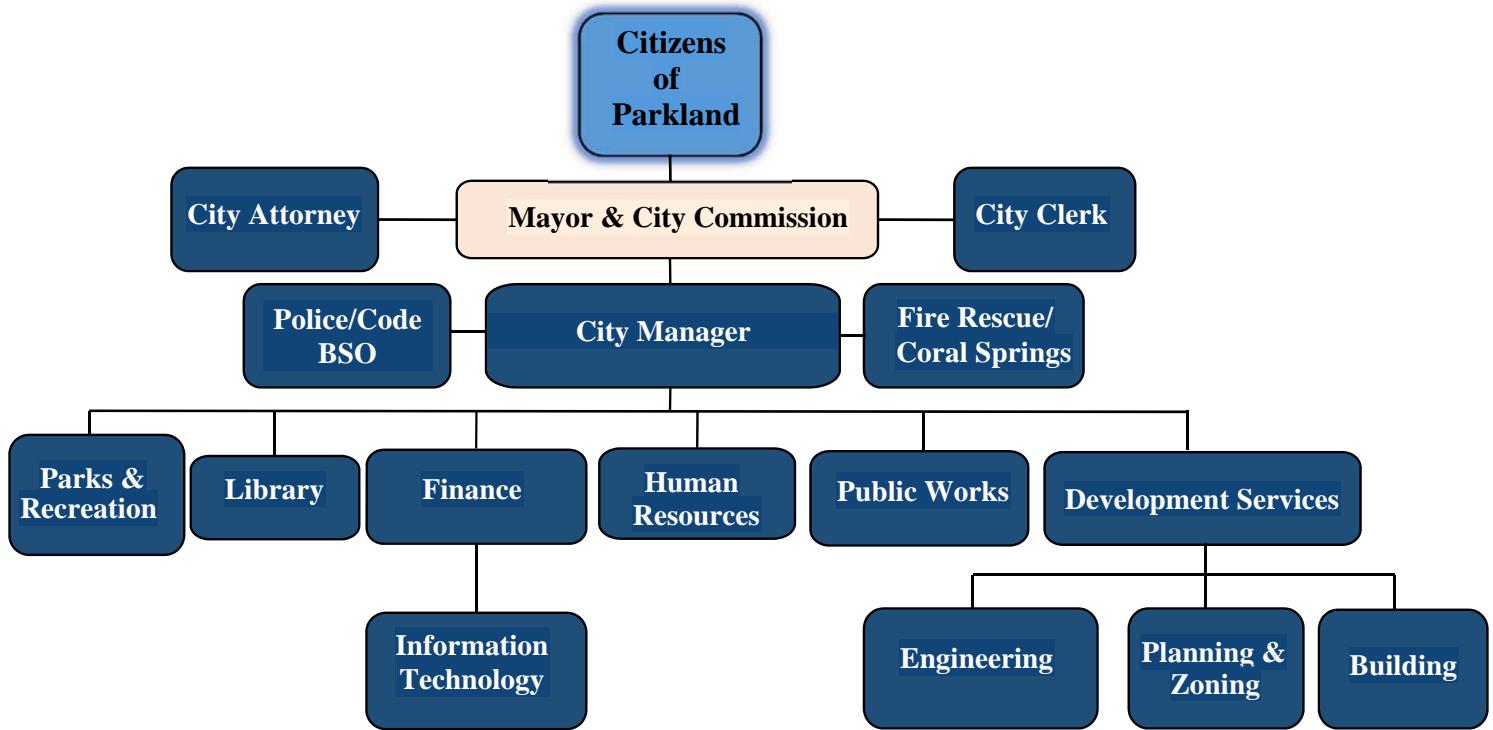

Nancy Morando
Interim City Manager and
Director of Finance and Administrative Services

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the City Commission
City of Parkland, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Parkland, Florida, (the "City") as of and for the fiscal year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City of Parkland, Florida's Police Officers Retirement Plan, which represent 23%, 23%, and 12%, respectively, of the assets, fund balance/net position, and revenues/additions of the aggregate remaining fund information of the City of Parkland, Florida. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the City of Parkland, Florida Police Officers Retirement Plan, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Parkland, Florida, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note 1 to the financial statements, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, which prescribes how state and local governments should define and measure fair value.

Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedule and Schedule of Funding Progress – Other Post Employment Benefits on pages 4-12 and 47-51, respectively be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Parkland, Florida's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the combining and individual fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 24, 2017, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Required Supplementary Information)

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

The purpose of the financial reporting, in general, is to provide the readers of the financial statements with information that will help them make decisions and draw conclusions about an entity. As management of the City of Parkland, Florida (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2016. We encourage readers to consider the information presented here in conjunction with the additional information provided in the transmittal letter on pages i through v at the beginning of this report as well as the financial statements and notes to financial statements that follow.

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$90,850,867 (net position), as compared with \$80,139,945 for the previous fiscal year. Of this amount, \$26,037,038 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$10,710,922 during the current fiscal year. Capital assets increased approximately \$5.6 million due to purchasing land adjacent to City Hall, ongoing construction at Pine Trails Park and at the Quigley Tennis Center. Increases in tax revenues, intergovernmental revenues and fines and forfeitures further contributed to the increase in the City's net position. Additionally, the City's long-term debt decreased due to utilizing \$1.6 million of cash reserves that were used to pay off the City's outstanding Florida Municipal Loan Council debt obligation.
- The City's governmental funds reported combined ending fund balances of \$40,796,496, an increase of \$2,272,131 in comparison with the prior fiscal year. Of this amount, approximately \$148,997 is non-spendable, \$15,836,835 is restricted, \$7,751,500 committed, \$4,690,214 is assigned and \$12,368,950 is unassigned.
- The total fair value of the City's cash and investments at September 30, 2016 was \$42,910,551, an increase of \$2,262,860 from the prior year.
- At the end of the current fiscal year, the unassigned fund balance for the general fund was \$12,368,950, or 46% of total general fund expenditures.
- The City's long-term liabilities decreased by \$2,628,201 due to no new debt issuance, payments made on existing debt, and paying off the City's Florida Municipal Loan Council debt obligation, which will save the City over \$400,000 in future interest costs.

Overview of the Financial Statements

This annual report consists of four parts: 1) Introductory Section 2) Financial Section 3) Statistical Section and 4) Compliance Section. Within the Financial Section, there is the Independent Auditors' Report, the Management's Discussion and Analysis, the Basic Financial Statements, Required Supplementary Information and Other Financial Information.

Basic Financial Statements

Government-wide financial statements

The government-wide statements on pages 13 and 14 include the statement of net position and the statement of activities. They are designed to provide a broad overview of the City's financial position as a whole, similar to private sector financial statements. The statement of net position shows the total assets and deferred outflows and liabilities and deferred inflows for the City, with the difference reported as net position. Over time, increases or decreases in net position may be an indicator of whether the financial position of the City is improving or deteriorating. The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. A good example of this is uncollected taxes and earned but unused compensated absences (annual leave).

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

Basic Financial Statements (Continued)

Government-wide financial statements (Continued)

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, physical environment, culture and recreation, and development services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, park & community improvement fund and the capital projects fund, which are considered to be major funds. Data from the other five governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund, capital projects fund, capital replacement fund, park & community improvement fund, government/library building fund, and public safety improvement fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 15 through 18 of this report.

Proprietary fund

The City maintains one type of proprietary fund known as an internal service fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Parkland's various functions. The City uses the internal service fund to account for its vehicle and computer replacement programs. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The City adopts an annual appropriated budget for its proprietary fund, the capital replacement fund.

The proprietary fund financial statements can be found on pages 19 through 21.

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

Basic Financial Statements (Continued)

Fiduciary fund

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Fiduciary Fund represents the Police Officers' Retirement Plan, and can be found on pages 22 and 23.

Notes to the financial statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 24 through 46 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including the budgetary comparison schedule, other post-employment benefits and Police Officers' Retirement Plan. Required supplementary information can be found on pages 47 and 51 of this report.

Combining and Individual Fund Statements and Schedules

Combining statements referred to earlier in connection with non-major governmental is presented immediately following the required supplementary information. They can be found on pages 52 through 53.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. In the case of the City of Parkland, assets exceeded liabilities by \$90,850,867 at the close of the fiscal year. The table below summarized the City's net position for the fiscal years ended September 30, 2016 and 2015.

The largest portion of the City's net position (approximately 54%) reflects its net investment in capital assets (land, buildings, improvements other than buildings, machinery and equipment, vehicles, and infrastructure) less any related outstanding debt used to acquire those assets (approximately \$11.7 million). The City uses these capital assets to provide services to its residents; therefore, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

	Net Position		
	<u>2016</u>	<u>2015</u>	% Change
Current and other assets			
\$ 43,782,521	\$ 41,402,781	6%

Unrestricted	26,037,038	25,287,659	3%
Total net position	<u>\$ 90,850,867</u>	<u>\$ 80,139,945</u>	<u>13%</u>

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

Government-Wide Financial Analysis (Continued)

A portion of net position, approximately 17%, represents resources that are subject to external restrictions on how they may be used. The largest components of these resources are for park and community improvements. Restricted net position for building department expenditures can only be used to satisfy the obligations of the Building Department. Restricted net position for western fire station will be used to satisfy outstanding debt service obligations. The remaining balance of unrestricted net position of \$26,037,038 may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in net position. The same situation held true for the prior fiscal year.

The largest component of current and other assets are cash and investments, which comprise approximately 98% of these assets. Cash and investments increased by \$2,262,860, from \$40,647,691, to \$42,910,551 as the City continues to experience increases in property values and tax collections. Capital assets (net) increased by \$5,607,335 as current year capital spending (namely Pine Trails Parks and the Quigley Tennis Center) exceeded depreciation expense and current year disposals.

Approximately 15% of the total liabilities are attributable to current liabilities, up from 13% in the prior year. Net long-term liabilities, comprised of compensated absences payable and long-term debt, decreased by \$2,628,201 as long-term debt decreased by \$2,691,926 and compensated absences payable increased by \$63,725.

Governmental activities

Governmental activities increased the City's net position by \$10,710,922, thereby accounting for the total growth in net position of the City. Key elements of the change are described below:

	Changes in Net Position		
	<u>2016</u>	<u>2015</u>	<u>% Change</u>
Revenues:			
Program revenues:			
Charges for services	\$ 21,174,586	\$ 16,216,943	31%
Operating grants and contributions	301,867	281,578	7%
Capital grants and contributions	200,000	121,854	64%

Culture and recreation	10,075,787	4,714,246	114%
Development services	2,958,094	3,063,435	-3%
Interest and other financing costs	473,745	516,288	-8%
Total expenses	<u>33,369,039</u>	<u>26,558,592</u>	<u>26%</u>
Change in net position	10,710,922	10,190,717	
Net position at beginning of year	<u>80,139,945</u>	<u>69,949,228</u>	
Net position at end of year	<u>\$ 90,850,867</u>	<u>\$ 80,139,945</u>	<u>13%</u>

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

Government-Wide Financial Analysis (Continued)

Property tax collections increased \$1,708,806 from fiscal year 2015. This increase is attributed to the appreciating values of homes and new construction. The City of Parkland had an increase of 12.8% in taxable values, resulting in an increase in ad valorem revenue. The City decreased the operating millage in fiscal year 2016, which had a rollback rate of \$3.7799. The fiscal year 2016 millage rate was \$3.9870 mills per \$1,000 of assessed value. This rate is well within the 10-mill maximum established by the State of Florida.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$40,796,496, an increase of \$2,272,131. Approximately 30% of this total amount constitutes unassigned fund balance, or \$12,368,950, which is available for spending at the City's discretion. The remainder is either restricted, committed, assigned or non-spendable, indicating it is not available for new spending.

The general fund is the chief operating fund of the City. At the end of the fiscal year, unassigned fund balance of the general fund was \$12,368,950, while total fund balance was \$26,650,816. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately 46% of the total general fund expenditures, while total fund balance represents 100% of that same amount.

The fund balance of the City's general fund decreased by \$1,484,210 during the current fiscal year. From an operating perspective, revenues exceeded expenditures by approximately \$5.0 million. A \$5,000,000 transfer from general fund reserves was made to the capital projects fund in order to fund capital projects with available cash and continue with pay-as-you-go financing. Key factors in the operations are listed below:

- Taxes were \$586,406 higher than anticipated due to new construction, population growth and existing home values increasing.
- License and permit revenues were higher than anticipated by \$1,034,621 due to an increase in new single family home construction.
- Intergovernmental revenues were \$443,985 higher than anticipated due to population increases that led to increases in half-cent sales tax and state revenue sharing collections in fiscal year 2016.
- Charges for services were \$1,173,825 higher than anticipated due to development review and engineering review fees associated with the new construction.
- Fines and forfeitures were \$336,383 higher than anticipated due to ongoing traffic enforcement and code compliance efforts aimed at maintaining City standards.
- Significant budget savings across all operating departments resulted in approximately \$2 million in savings:
 - General government was 18% less than budgeted mainly due to less than anticipated City-wide legal costs and lower other governmental expenditures.
 - Physical environment was 12% less than budgeted due to position vacancies and less than anticipated operating expenditures for building maintenance and park maintenance.
 - Development services was 25% less than budgeted due to budgeted building inspector positions that were not filled in fiscal year 2016.

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

General Fund Budgetary Highlights

Taxes were \$586,406 over budget due to new construction, population growth and existing home values increasing. Licenses and permits were over budget by \$1,034,621, or 20%, due to an increase in new single family home construction. As the local population continues to grow with the new housing development, intergovernmental revenues were over budget by \$443,985 due to an increase in half-cent sales tax collections and state revenue sharing proceeds. Charges for services were over budget by \$1,173,825, or 82% due to development review and engineering review fees associated with new development. Fines and forfeitures revenues surpassed the budgeted amount by \$336,383 due primarily to ongoing traffic enforcement and code compliance efforts aimed at maintaining City standards.

General government expenditures were below budget by \$579,025, or 18% due primarily to lower than expected legal costs and lower than anticipated general government costs. Physical environment costs were \$494,048, or 12% less than budget due to position vacancies and less than anticipated operating expenditures for building maintenance and park maintenance. Development services were \$688,938, or 25% below budget due to budgeted building inspector positions that were not filled in fiscal year 2016. Culture and recreation was \$145,680, or 6% below budget due to personnel eliminations made during fiscal year 2016.

	Original Budget	Final Budget	Actual	Approximate Percent Variance
Revenues:				
Ad Valorem taxes	\$ 14,441,941	\$ 14,441,941	\$ 14,637,301	1%

Park and Community Improvement Fund

The Parks and Community Improvement Fund is used to account for the revenues and expenditures for capital improvements to the City's parks and capital contributions to the community and City schools. During fiscal year 2016 impact fee collections and developer contributions exceeded expectations resulting in increased expenditures on capital improvements for City parks and contributions to schools.

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

Capital Projects Fund

The capital projects fund is used to account for the acquisition and construction of major capital facilities, as well as to account for financial resources to be used for the purchase of equipment and construction of major improvements to City facilities. At the end of the fiscal year, the fund balance of the capital projects fund was \$1,866,952, an increase of \$605,563 from the prior year. During fiscal year 2016, General Fund reserves of \$5,000,000 were transferred to the Capital Projects Fund to fund all existing capital projects on a pay-as-you-go basis.

The major expenditures in the capital projects fund were as follows:

- Land purchase of 12 acres adjacent to the City Hall complex
- Pine Trails Park:
 - Playground and shade structures
 - Restroom building
- Two (2) basketball courts
- Liberty Park Splash Pad

Capital Assets and Debt Administration

The City's investment in capital assets for its governmental activities as of September 30, 2016, amounts to \$61,522,669 (net of accumulated depreciation). The investment includes land, buildings, improvements other than buildings, machinery and equipment, vehicles, construction-in-progress and infrastructure.

Major capital asset events during the current fiscal year included the following:

- The City purchased approximately 12 acres of land adjacent to the City Hall complex for \$1,867,913.
- Construction on the Quigley Tennis Center commenced during the current fiscal year. A total of \$2,761,157 was expended in fiscal year 2016. The total anticipated completion cost is \$3,329,000.
- The major expansion of Pine Trails Park continued during the current fiscal year. A total of \$1,849,045 was expended in fiscal year 2016.
- Roadway and trail improvements of \$604,621 were spent during the fiscal year for design and construction of water mains along roads in the Ranches part of the City.

Capital assets for the years ended September 30, 2016, and 2015, consisted of the following:

	Capital Assets		
	<u>2016</u>	<u>2015</u>	<u>% Change</u>
Governmental activities:			
Capital assets:			
Land	\$ 14,548,402	\$ 12,680,489	15%
Buildings	12,073,095	12,156,264	-1%
Improvements other than buildings	5,979,504	4,987,366	20%

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

Debt Administration

Long-term debt

At the end of the fiscal year, the City had total long-term liabilities of \$12,218,136. The notes payable and the revenue bonds are secured solely by specific revenue sources as detailed in the notes to the financial statements.

Additional information on the City's long-term debt can be found in Note 7 on pages 36 and 37. All debt is related to governmental activities.

	Changes in Long-Term Liabilities					Due within One Year
	Balance October 1, 2015	Additions	Retirements	Balance September 30, 2016		
Governmental activity:						
Notes payable	\$ 5,940,370	\$ -	\$ (495,931)	\$ 5,444,439	\$ 515,952

Long-term debt	<u>\$ 14,846,337</u>	<u>\$ 423,284</u>	<u>\$ (3,051,485)</u>	<u>\$ 12,218,136</u>	<u>\$ 1,158,952</u>	

Local Economy, Economic Factors and Next Year's Budget and Rates

Florida's economy has been strengthening. Nationwide, there are three most widely used indicators of government financial health. One such economic measure is State Gross Domestic Product. Significant progress has been made since 2009 when Florida had a 5.9% decrease in State GDP. Using this measure, Florida's growth for 2014 was 2.7%, which is higher than the 2.2% growth for the United States. Florida's growth estimate for 2015 is 2.0%, which is higher than the National forecast of 1.9%. During 2016-2019, it is expected that Florida's economy will expand at an average annual rate of 2.9%, which is stronger than the forecasted pace for the national economy.

Another factor frequently used to gauge the health of an individual state is personal income growth which is primarily related to changes in salaries and wages. In the revised data, Florida finished the 2015 calendar year with 5.2% growth over 2014, which was slightly higher than the national average of 4.4%. Real personal income growth is expected to average 3.3% during 2016-2019. Florida's average growth will exceed the national rate by 0.3% over that four-year span. For calendar year 2014, personal income growth for Parkland residents increased as the City's Median Household Income increased from \$124,453 (2009-2013) to \$126,905 (2010-2014), a 2.0% increase.

Florida's net seasonally adjusted unemployment rate for April 2016 was 4.5%, which is 0.7% lower than the April 2015 net seasonally adjusted unemployment rate 5.2%. Florida's unemployment rate was 0.2% lower than the national rate. Florida's unemployment rate has been less than or equal to the national rate for 26 of the last 41 months. For April 2016, Florida had 472,000 unemployed people. Broward County reports a 4.2% unemployment rate in April 2016 which is lower than both state and national averages.

Population growth is the state's primary engine of economic growth, fueling both employment and income growth. Population growth is expected to remain above 1.5% over the next few years. In the near-term, Florida is expected to grow by 1.59% between 2015 and 2016 and average 1.52% between 2015 and 2020. Most of Florida's population growth through 2030 will be from net migration. The City of Parkland's population is expected to increase between 25-30% by 2020 with the completion of development in the annexed portions of the City.

The City of Parkland is experiencing rapid single-family home development. The number of single-family homes within the City is projected to increase approximately 25-30% through 2020. Florida's homeownership rate of 64.7% is currently at its lowest rate since 1989. In contrast, Parkland's homeownership rate is approximately 86%. Florida growth rates are generally returning to more typical levels and continue to show progress. According to various forecasts, normalcy is expected to be achieved by FY 2016-17.p

CITY OF PARKLAND, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2016

Local Economy, Economic Factors and Next Year's Budget and Rates (Continued)

In fiscal year 2016, the City had an increase of 12.8% in taxable values, the largest in Broward County. For fiscal year 2017, the City had an increase of 11.9% or \$453 million in taxable value. This increase is a combination of new taxable values and current values increasing. This increase resulted in an additional \$1.6 million in ad valorem revenue. This is the 6th consecutive year that taxable values have increased. The Operating Millage Rate is \$3.9800 for fiscal year 2017 and the roll-back rate is \$3.8314. This is a slight decrease from FY 2016's rate of \$3.9870.

According to Zillow, the median home value in Parkland is \$589,800. Parkland home values have increased 6.3% over the past year. The median price of homes currently listed in Parkland is \$699,999. The median rent price in Parkland is \$3,770, which is higher than the Miami-Fort Lauderdale Metro median of \$1,892.

An increasing tax base due to increasing real estate values and new construction has enabled the City to accumulate a healthy fund balance and take on capital improvement projects all while keeping the millage rate low. The City is able to contribute to its infrastructure and capital replacement funds and has increased the stabilization fund reserve level. These contributions help prepare the City for upcoming equipment and infrastructure needs and any unforeseen circumstances including natural disasters or a possible economic downturn. The City is preparing for the future, which includes the opportunities and challenges due to population growth. Spending is continuously analyzed in order to maximize resources, streamline and reduce costs and keep in line with the City's strategic goals.

NOTES TO BASIC FINANCIAL STATEMENTS

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

City of Parkland, Florida (the City) was incorporated in 1963 under the laws of the State of Florida Chapter 166 and is a political subdivision of the State of Florida located in Broward County. The City operates under a Commission-Manager form of government, with its legislative function being vested in a five-member Commission. The City Commission is governed by the City Charter and by state and local laws and regulations. The City Commission is responsible for the establishment and adoption of policy. The City provides a full range of municipal services as authorized by its charter.

A. Financial Reporting Entity

As required by generally accepted accounting principles, these basic financial statements present the reporting entity of the City. Component units are legally separate entities for which the government is considered to be financially accountable and for which the nature and significance of their relationship with the primary government are such that exclusion would cause the City's combined financial statements to be misleading or incomplete. The primary government is considered financially accountable if it appoints a voting majority of an organization's governing body and 1) it is able to impose its will on the organization or 2) there is a potential for the organization to provide specific financial benefit to or impose specific financial burden on the Board. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity financial statements to be misleading or incomplete. Based upon the application of these criteria, there were no organizations which met the criteria described above.

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting. The more significant of the City's accounting policies are described below:

B. Government-Wide and Fund Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for the fiduciary fund. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. As of September 30, 2016, the City had no business-type activities.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

The accounts of the City are organized on the basis of funds, each of which is considered and accounted for as a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflow of resources, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental category. GASB Statement No. 34 sets forth minimum criteria (percentage of assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category for the governmental and enterprise, combined or funds that management deems of public importance) for the determination of major funds. The nonmajor funds are combined and presented in a single column in the fund financial statements.

The government-wide-focus is more on the-sustainability of the City as an entity and the-change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories, (by category). Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements (i.e., the Statements of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the government. Fiduciary funds are excluded from the government-wide financial statements. The effect of interfund activity has been removed from these statements. Interfund services provided, if any, are not eliminated in the process of consolidating the government-wide financial statements.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

The City reports the following major governmental funds:

General Fund – The General Fund is the principal operating fund of the City and is used to account for all financial transactions except those that are required to be accounted for in another fund.

Capital Projects Fund – The Capital Projects Fund is used to account for the acquisition and construction of major capital facilities as well as to account for financial resources to be used for the purchase of equipment and the construction of major improvements to City facilities.

Parks & Community Improvements Fund – This special revenue fund is used to account for revenues and expenditures for capital improvements to the City parks and capital contributions to the community and City schools.

Additionally, the City reports the following fund types:

Internal Service Fund – The Capital Replacement Fund is used to account for goods or services provided by one department to other departments of the City on a cost- reimbursement basis. The City operates one Internal Service Fund.

Fiduciary Trust Fund – The Fiduciary Trust Fund is used to account for assets held by the City as trustee for others. The Police Officers Retirement Plan, reported as a Fiduciary Trust Fund, is used to account for the activities of the City-sponsored Plan.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, generally only current assets and current liabilities are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financial sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The financial statements of the City have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard setting body for governmental accounting and financial reporting. The financial statements of the City follow the guidance of GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements for both the government wide and proprietary fund financial statements. Governments also have the option of following subsequent FASB pronouncements for their business-type activities and enterprise funds subject to this same limitation. The City has elected not to follow subsequent FASB guidance.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The accrual basis of accounting is followed in the Internal Service Fund and the Pension Trust Fund. Under this method accounting, operating revenues and additions are recognized in the accounting period in which they are earned, while expenses and deductions are recognized in the period in which they are incurred. With this measurement focus, all assets and liabilities associated with the operations of these funds are included on the statement of net position.

All governmental fund types use the modified accrual basis of accounting under which revenue is recognized in the accounting period in which it becomes susceptible to accrual (i.e., when it becomes both measurable and available). "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within sixty days (60) after year end. Other taxes, intergovernmental revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items such as fines and forfeitures and licenses and permits are considered to be measurable and available only when cash is received by the City.

Expenditures are generally recognized when the related fund liability is incurred except for principal and interest on long-term debt which are recognized as expenditures on the due date.

1. **Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets, liabilities, disclosures of contingent liabilities, revenues and expenditures/expenses reported in the financial statements and accompanying notes. These estimates include assessing the collectability of receivables, the realization of pension obligations and the useful lives of capital assets. Although these estimates as well as all estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.
2. **Cash and Cash Equivalents** - Cash and cash equivalents include cash on hand, demand deposits, and highly liquid investments with a maturity of three months or less when purchased. Resources of all funds have been combined into a pooled cash and investment system for the purpose of maximizing earnings. Interest earned on pooled cash and investments is allocated monthly based upon the month end equity of fund balances of the respective funds.
3. **Investments** - All City investments are reported at fair value based on quoted prices as of the financial statement date. Interest income from pooled cash and investments is allocated on the basis of each individual fund's proportionate share of the investment pool.
4. **Accounts Receivable** - Accounts receivable of the General Fund and Capital Projects Fund consists of billed receivables for miscellaneous services. The City has not established a reserve for doubtful accounts relating to this accounts receivable because the City considers all balances to be collectable.
5. **Prepays** - Certain payments to vendors reflect costs applicable to a future accounting period and are recorded as prepaid items in both government-wide and fund financial statements.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

6. **Capital Assets** - Capital Assets whether tangible or intangible, which include land, buildings, improvements other than buildings, machinery and equipment, vehicles, construction in progress, and infrastructure are reported in the governmental activities column in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the asset constructed. No such costs were capitalized during 2016.

Capital assets of the City are depreciated using the straight-line method over their estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10-50
Improvements other than buildings	5-25
Machinery and equipment	5-20
Vehicles	5-20
Infrastructure	10-50

7. **Deferred Outflows/Inflows of Resources** - In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the City does not report any item that qualifies for reporting in this category.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as inflows of resources (revenue) until that time.

Currently, the only item in this category is unearned revenue. The source of this unearned revenue is local business license tax collected in advance of \$53,449 reported in both the governmental funds and the government-wide statement of net position. This amount is deferred and will be recognized as an inflow of resources in the period that the amounts become available.

Net position is the residual of all other elements presented in a statement of financial position. It is the difference between (a) assets plus deferred outflows of resources and (b) liabilities and deferred inflows of resources.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

8. Unearned Revenues - Inflows that do not meet the criteria for revenue recognition, such as grants are classified as liabilities and recorded as unearned revenue in government-wide and the fund financial statements.
9. Unavailable Revenues - Unavailable revenue (deferred inflows of resources) is recorded for governmental fund receivables that are not both measurable and available. Currently, the City has no such revenues.
10. Compensated Absences - City employees are granted vacation, sick, and compensatory leave in varying amounts based on length of service. Upon separation in good standing, employees receive full reimbursement up to a maximum of 240 hours for accumulated vacation, up to 16 hours of compensatory hours, as well as reimbursement for sick hours at a rate of one hour of pay for every two hours accumulated up to a maximum of 520 hours.

Accumulated compensated absences are recorded as expenses in the government-wide financial statements when incurred. Expenditures for accumulated compensated absences have been recorded in the governmental funds only for amounts payable to employees who have terminated as of the end of the fiscal year.

11. Long-Term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. The long-term debt consists primarily of notes, revenue bonds, and accrued compensated absences payable. Bonds payable are reported net of applicable bond premium or discount. Debt issue costs, even if withheld from net proceeds (if material) are recognized during the period in which the bonds are issued.
12. On-Behalf Payments - The City receives on-behalf payments from the State of Florida to be used for Police Officers' Retirement Plan contributions. On-behalf payments to the City totaled \$281,953 for the fiscal year ended September 30, 2016. Such payments are recorded as intergovernmental revenue and public safety expenses/expenditures in the GAAP basis government-wide and general fund financial statements, but are not budgeted and therefore are not included in the general fund budgetary basis financial statements.
13. Net Position - Net Position is classified and displayed in three components:

Net investment in capital assets: Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position: Consists of net position with constraints placed on the use either by: 1) external groups such as creditors, grantors, contributors, laws or regulations of other governments; or 2) law through constitutional provisions of enabling legislation.

Unrestricted net position: All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

14. **Fund Balance** - In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Nonspendable: Amounts that cannot be spent because they are either (a) not in spendable form; or (b) legally or contractually required to be maintained intact.

Restricted: Amounts that are restricted to specific purposes either by a) constraints placed on the use of resources by creditors, grantors, contributors, laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts that can only be used for specific purposes pursuant to constraints imposed by the City Commission through an ordinance.

Assigned: Amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. In accordance with the City's fund balance policy, assignments can be made by formal action of the City Commission or the City Commission can delegate authority to the City Manager.

Unassigned: Fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that reports a positive unassigned fund balance amount.

15. **Net Position Flow Assumption** - Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide financial statements, a flow assumption must be made about the order in which resources are considered to be applied.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it is the City's policy to reduce restricted amounts first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the City's policy to reduce committed amounts first, followed by assigned amounts, and then unassigned amounts.

16. **Interfund Transactions** - Basic types of interfund transactions include transactions for services rendered or facilities provided. These transactions are recorded as revenues in the receiving fund and expenditures in the disbursing fund. In addition, interfund transactions include transactions to transfer revenue or contributions from the fund budgeted to receive them to the fund budgeted to expend them. These transactions are recorded as operating transfers in and out. Lastly, interfund transactions include transfers to close funds.

17. **Encumbrances** - Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the governmental funds for which an annual budget is adopted. Encumbrances outstanding at year-end are included in next the year's budget; however, the General Fund typically does not have any encumbrances outstanding at year end.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

18. Implementation of Governmental Accounting Standards Board Statements - The City implemented the following GASB Statements during the fiscal year ended September 30, 2016, that had an impact on the financial statements:

GASB Statement No. 72, Fair Value Measurement and Application, which prescribes how state and local governments should define and measure fair value as well as which assets and liabilities should be measured and the disclosure requirements.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants, which addresses accounting and financial reporting for certain external investment pools and pool participants.

NOTE 2 – PROPERTY TAXES

The City's property tax is levied, becomes a lien on real and personal property located in the City, and is recorded as a receivable on November 1 of each year based upon the assessed value established by Broward County Property Appraiser as of the prior January 1.

The City is permitted by Florida law to levy ad-valorem taxes for real and tangible personal property taxes up to \$10 per \$1,000 of assessed value, except for special benefits and debt service obligations which may be issued with the approval of those taxpayers subject to ad-valorem taxes. The assessed value as of January 1, 2015 upon which the 2016 fiscal year levy was based, was approximately \$3.813 billion. Taxes were levied at 3.9870 per \$1,000 for the fiscal year ended September 30, 2016.

Taxes become payable on November 1st each year and are discounted 1% for each month for payment prior to the following March 1st. All unpaid taxes become delinquent on April 1st and are subject to the issuance of Tax Sale Certificates on June 1st. Tax collections for the fiscal year ended September 30, 2016 were 96% of the tax levy, net of discounted allowed.

The City's tax revenue is first paid to the Broward County Tax Collector who remits to the City funds collected following a calendar prescribed by law. The City's taxes are billed along with all other taxes due to Broward County taxing entities. The Tax Collector pays the City interest on monies held from the day of collection to the day of distribution. The City has no control over the investment program of the Tax Collector as this program is governed by Florida Statutes.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 3 – DEPOSITS AND INVESTMENTS

1. City

Deposits:

In addition to insurance provided by the Federal Depository Insurance Corporation, deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, *Florida Security for Public Deposits Act*, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or other banking institution eligible collateral. In the event of failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. The City's deposits at year end are considered insured for custodial credit risk purposes.

As of September 30, 2016, the carrying amount of the City's deposits and bank balances was \$35,467,729. The City also had cash on hand of \$645.

Investments:

The State Board of Administration is part of the Local Governments Surplus Funds Trust Fund and is governed by Chapter 19-7 of the Florida Administrative Code. These rules provide guidance and establish the general operating procedures for the administration of the Local Governments Surplus Funds Trust Fund. Additionally, the Office of the Auditor General performs the operational audit of the activities and investments of the State Board of Administration. The Local Government Surplus Funds Trust Fund is not a registrant with the Securities and Exchange Commission (SEC); however, the board has adopted operating procedures consistent with the requirements for a 2a-7 fund.

The State Board of Administration administers the Florida PRIME, which is the Local Government Surplus Funds Trust Fund Investment Pool and consists of all money market appropriate assets.

At September 30, 2016, Florida PRIME was assigned an "AAAm" principal stability fund rating by Standard and Poor's. Florida PRIME is considered a SEC 2a7-like fund, thus, the account balances should be considered its fair value.

The weighted average days to maturity (WAM) of Florida PRIME at September 30, 2016, was 28 days. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of Florida PRIME to interest rate changes.

In accordance with GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, the City's investment in the Florida PRIME meets the definition of a qualifying investment pool that measures for financial reporting purposes all of its investments at amortized cost and should disclose the presence of any limitations or restrictions on withdrawals. As of September 30, 2016, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

As of September 30, 2016, the City of Parkland had \$7,442,822 invested in Florida PRIME. Additional information regarding the Local Government Surplus Funds Trust Fund may be obtained from the State Board of Administration.

Credit Risk:

The City has an investment policy that emphasizes the safety of principal while maintaining adequate liquidity to meet its needs. Investments are limited to the highest ratings by two of the nationally recognized statistical rating organizations (NRSRO) – (Standard & Poor's and Moody's Investment Services). As of September 30, 2016, Florida PRIME was rated AAAm by Standard and Poor's Ratings Services.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 3 – DEPOSITS AND INVESTMENTS (Continued)

1. City (continued)

Interest Rate Risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City does not have a formal investment policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

2. Pension Fund

Investment Authorization:

The Police Officers Retirement Plan's investment policy is determined by the Board of Trustees. The policy has been identified by the Board as preserving the purchasing power of the Plan's assets to earn an above average real rate of return (after inflation) over the long-term while minimizing, to a reasonable extent, the short-term volatility of results. The Plan is authorized to invest in repurchase agreements; direct obligations of the United States Treasury including bills, notes, bonds and various forms of Treasury zero-coupon securities; authorized investments purchased by or through the State Board of Administration or the Office of the State Treasurer; commercial paper issued in the United States by any corporation; banker's acceptances issued within the U.S.; nonnegotiable Certificates of Deposit issued by Florida Qualified Public Depositories as identified by the State Treasurer's office and/or negotiable certificates of deposit issued in U.S. dollars by institutions; obligations of the agencies or instrumentalities of the federal government; money market mutual master trust funds; mortgage obligations guaranteed by the United States government and sponsored agencies or instrumentalities; corporate fixed income securities issued by any corporation in the United States; asset-backed securities issued in the United States; securities of state, municipal and county governments or their public agencies; commingled governmental investment trusts, no-load investment master trust funds, or no-load mutual master trust funds in which all securities held by the trusts or master trust funds are authorized investments; guaranteed investment contracts with insurance companies; investment agreements with other financial institutions; equity assets, including common stock, preferred stock and interest bearing obligations having an option to convert into common stock; Florida Municipal Investment Trust (FMIVT) Portfolios; and any other investment permitted by law. At September 30, 2016, the Plan's investments were as follows:

	<u>Fair Value</u>
Local Government Investment Pool:	
Florida Municipal Pension Trust Fund	\$ 1,915,383
Total investments	<u>\$ 1,915,383</u>

The Florida Municipal Investment Trust (Municipal Trust) was created under the laws of the State of Florida to provide eligible units of local government with an investment vehicle to pool their surplus funds and to reinvest such funds in one or more investment portfolios under the directions and daily supervision of an investment advisor. The Florida League of Cities serves as the administrator, investment manager and secretary-treasurer of the Trust.

All assets of the Plan are invested with the Florida Municipal Pension Trust Fund (FMPTF). The FMPTF was established in 1993 under the laws of the State of Florida to provide eligible units of local government with an investment vehicle to pool their surplus funds. All Plan assets with the FMPTF are included in the trust's Master Trust Fund and are administered by the Florida League of Cities, Inc. The Master Trust Agreement provides that the Master Trustees have the exclusive authority and discretion to manage and control the assets of the Master Trust Fund according to the provisions of the FMPTF Investment Policy, amended and restated as of June 4, 2015. The fund is stated at fair value and investments earnings are allocated to the participants in the fund based on their equity in this pooled investment account as provided by the FMPTF.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 3 – DEPOSITS AND INVESTMENTS (Continued)

2. Pension Fund (Continued)

Investment Authorization (Continued):

The Plan is invested in the 50/50 Allocation Portfolio with the following balances:

	<u>Fair Value</u>	<u>Percent</u>
Broad Market High Quality Bond Fund	\$ 380,608	19.87%
Core Plus Fixed Income Fund	573,998	29.97%
High Quality Growth Portfolio	119,326	6.23%
Large Cap Diversified Value Portfolio	111,096	5.80%
Russell 1000 Enhanced Index Portfolio	444,385	23.20%
Diversified Small Cap Equity Portfolio	146,071	7.63%
International Blend Portfolio	139,899	7.30%
	<u><u>\$ 1,915,383</u></u>	<u><u>100%</u></u>

Shares of the portfolios are neither insured nor guaranteed by any U.S. Government Agency, including the FDIC. At September 30, 2016, the Broad Market High Quality Bond Fund was rated AAf/S4 by Fitch Rating and had a weighted average maturity of 5.90 years.

Interest Rate Risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment in debt securities. The investment policy of the Plan limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Risk:

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The Plan has no formal policy for custodial risk. The local government investment pool is not evidenced by securities that exist in physical or book entry form.

Credit Risk:

For investments, credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investment ratings by investment type are included in the preceding summary of investments.

Concentration of Credit Risk:

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The investment policy of the Plan contains limits on the amount that can be invested in any one issuer as well as maximum portfolio allocation percentages.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 4 - FAIR VALUE MEASUREMENTS

During the fiscal year 2016, the Pension Plan implemented Governmental Accounting Standard Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, which addresses accounting and financial reporting issues related to fair value measurements.

The Plan categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the entire fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table summarizes the Plan's investments within the fair value hierarchy at September 30, 2016:

Investment Type	Fair Value Measurements at Reporting date			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Broad Market High Quality Bond Fund	\$ 380,608	\$ -	\$ 380,608	\$ -
Core Plus Fixed Income Fund	573,998	-	-	573,998
High Quality Growth Portfolio	119,326	-	119,326	-
Large Cap Diversified Value Portfolio	111,096	-	111,096	-
Russell 1000 Enhanced Index Portfolio	444,385	-	444,385	-
Diversified Small Cap Equity Portfolio	146,071	-	146,071	-
International Equity Portfolio	139,899	-	139,899	-
Total Fair Value	\$ 1,915,383	\$ -	\$ 1,341,385	\$ 573,998

Broad Market High Quality Bond Fund – This fund invests mainly in US government and agency securities, asset-backed securities and corporate bonds and notes. The underlying securities have observable level 1 quoted pricing inputs or observable level 2 significant other observable pricing inputs. Most of the security prices are obtained from a pricing service, Interactive Data Corporation. While the underlying asset values are based on quoted prices or market-corroborated inputs, the net asset value of the portfolio is not publicly quoted.

Core Plus Fixed Income Fund – This fund invests in two underlying funds, the Franklin Templeton Global Multi-Sector Plus Fund, LP and the Pioneer Institutional Multi-Sector Fixed Income Portfolio, LLC. Shares of these funds are not publicly quoted. These underlying funds invest in a variety of financial instruments, including equity investments, asset-backed securities, debt securities, swaps, forward exchange contracts, credit-linked notes, escrow accounts, litigation trusts for both U.S. and foreign companies and governments.

High Quality Growth Portfolio – This portfolio invests mainly in domestic stocks. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation. While the underlying asset values are based on quoted market prices, the net asset value of the portfolio is not publicly quoted.

Large Cap Diversified Value Portfolio – This portfolio invests mainly in domestic stocks. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation. While the underlying asset values are based on quoted market prices, the net asset value of the portfolio is not publicly quoted.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Russell 1000 Enhanced Index Portfolio – This portfolio invests in a single underlying fund, the Intech U.S. Broad Enhanced Plus Fund, LLC (Intech Fund), shares of which are not publicly quoted. The Intech Fund invests mainly in domestic stocks, all of which have observable level 1 quoted pricing inputs. The value of the portfolio's shares of the Intech Fund investment are determined based on the net asset value provided by the Intech Fund, which was calculated in accordance with generally accepted accounting principles.

Diversified Small to Mid Cap Equity Portfolio – This portfolio invests mainly in domestic stocks. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation. While the underlying asset values are based on quoted market prices, the net asset value of the portfolio is not publicly quoted.

International Equity Portfolio – This portfolio invests in a single underlying fund, the Investec International Dynamic Equity Fund, LLC (Investec Fund), shares of which are not publicly quoted. The Investec Fund invests in stocks sold on U.S. and international exchanges, all of which have observable level 1 quoted pricing inputs. The value of the portfolio's shares of the Intech Fund investment are determined based on the net asset value provided by the Investec Fund, which was calculated in accordance with generally accepted accounting principles.

NOTE 5 – INTERFUND TRANSACTIONS

Interfund transfers for the year ended September 30, 2016, were as follows:

	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ 532,950	\$ 7,102,600
Capital Projects Fund	5,000,000	-
Park & Community Improvement Fund	-	285,000
Non-major governmental Funds	1,800,000	247,950
Capital Replacement Fund	302,600	-
Totals	<u>\$ 7,635,550</u>	<u>\$ 7,635,550</u>

Impact fees previously collected were transferred to the General Fund to make debt service payments on the loan payable referenced in the long-term liabilities footnote. Transfers out of the General Fund were made to formally set aside General Fund reserves for the City's capital replacement and infrastructure replacement programs and to use General Fund reserves for capital project funding.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 6 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended September 30, 2016, was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ 12,680,489	\$ 1,867,913	\$ -	\$ 14,548,402
Construction in Progress	9,156,152	8,187,402	(4,470,618)	12,872,936
Total capital assets, not being depreciated	<u>21,836,641</u>	<u>10,055,315</u>	<u>(4,470,618)</u>	<u>27,421,338</u>
Capital assets, being depreciated:				
Buildings	12,156,264	-	(83,169)	12,073,095
Infrastructure	31,945,974	513,984	(129,358)	32,330,600
Machinery and equipment	4,423,908	571,742	(74,359)	4,921,291
Vehicles	2,194,613	657,247	(99,396)	2,752,464
Improvements other than buildings	4,987,366	1,088,223	(96,085)	5,979,504
Total capital assets, being depreciated	<u>55,708,125</u>	<u>2,831,196</u>	<u>(482,367)</u>	<u>58,056,954</u>
Less accumulated depreciation for:				
Buildings	2,485,403	313,408	(24,119)	2,774,692
Infrastructure	11,904,486	1,173,407	(129,358)	12,948,535
Machinery and equipment	3,302,738	577,221	(68,759)	3,811,200
Vehicles	1,863,539	102,172	(99,396)	1,866,315
Improvements other than buildings	2,073,266	537,229	(55,614)	2,554,881
Total accumulated depreciation	<u>21,629,432</u>	<u>2,703,437</u>	<u>(377,246)</u>	<u>23,955,623</u>
Total capital assets, being depreciated, net	<u>34,078,693</u>	<u>127,759</u>	<u>(105,121)</u>	<u>34,101,331</u>
Governmental activities, capital assets, net	<u><u>\$ 55,915,334</u></u>	<u><u>\$ 10,183,074</u></u>	<u><u>\$ (4,575,739)</u></u>	<u><u>\$ 61,522,669</u></u>

Provision for depreciation was charged to functions/programs of the government as follows:

General government	\$ 387,886
Public safety	339,212
Physical environment	917,779
Culture and recreation	<u>1,058,560</u>
Total depreciation expense - governmental activities	<u>\$ 2,703,437</u>

NOTE 7 – LONG-TERM LIABILITIES

The following is a summary of the changes in long-term liabilities of the City's governmental activities for the fiscal year ended September 30, 2016:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Note payable	\$ 5,940,370	\$ -	\$ (495,931)	\$ 5,444,439	\$ 515,952
Revenue bonds payable	1,780,000	-	(1,780,000)	-	-
Unamortized bond premium	24,926	-	(24,926)	-	-
Loan payable	6,618,000	-	(393,000)	6,225,000	404,000
OPEB	22,468	1,931	-	24,399	-
Compensated absences	<u>460,573</u>	<u>421,353</u>	<u>(357,628)</u>	<u>524,298</u>	<u>239,000</u>
Governmental activity long-term liabilities	<u><u>\$ 14,846,337</u></u>	<u><u>\$ 423,284</u></u>	<u><u>\$ (3,051,485)</u></u>	<u><u>\$ 12,218,136</u></u>	<u><u>\$ 1,158,952</u></u>

Compensated absences and other postemployment benefit obligations are typically liquidated in the General Fund.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 7 – LONG-TERM LIABILITIES (Continued)

Note Payable:

In September 2005, the City issued a promissory note in the amount of \$10,000,000 to provide funds to refinance existing debt and to finance recreational facility improvements. This note requires quarterly payments of principal and interest of approximately \$179,850. The interest rate of the note is 3.82%. Payment of this note is secured by a pledge of the City's half cent sales tax, franchise, and utility tax revenues. Principal and interest paid for the current fiscal year was \$719,425 and the pledged half-cent sales taxes, franchise taxes, and utility taxes totaled \$5,333,433 for the year. At September 30, 2016, principal and interest to maturity in 2025 to be paid from pledged future revenues totaled \$6,475,336.

Future debt service requirements to amortize the Note Payable are as follows:

Fiscal Year		Principal	Interest	Total
<u>Ending</u>				
2017		\$ 515,952	\$ 203,473	\$ 719,425
2018		536,227	183,198	719,425
2019		557,299	162,126	719,425
2020		578,819	140,606	719,425
2021		601,944	117,480	719,424
2022-2025		2,654,198	224,014	2,878,212
		<u>\$ 5,444,439</u>	<u>\$ 1,030,897</u>	<u>\$ 6,475,336</u>

Revenue Bonds Payable:

In 2005, the City issued the \$2,824,849 Series 2005D Florida Municipal Loan Council Revenue Bonds, which require semi-annual interest payments as well as one annual principal payment, which will equal approximately \$210,000 in annual debt service, with an approximate 4.6% of yield. This amount included a premium of \$49,849, which is being amortized over the life of the Bonds. The bonds mature in October 2025.

During the year the City paid off the balance outstanding resulting in future interest savings of approximately \$461,000.

Loan Payable:

On October 7, 2013, the City entered into a 15-year loan agreement totaling \$7,000,000, with a fixed interest rate of 2.79%. The loan proceeds were used to construct capital improvements consisting of a fire station, improvements to Pine Trails Park, and such other capital projects as shall be approved by the City. This loan requires semi-annual interest payments as well as one annual principal payment, which will equal approximately \$575,000. The note matures in October 2028.

Payment for the Bonds is from a pledge of all non-ad valorem tax revenues. Principal and interest paid for the current fiscal year was \$572,070 and pledged non-ad valorem tax revenues totaled \$17,084,965 for the year. At September 30, 2016, principal and interest to maturity in 2028 to be paid from pledged future revenues totaled \$7,420,529.

Future debt service requirements to amortize the loan are as follows:

Fiscal Year		Principal	Interest	Total
<u>Ending</u>				
2017		\$ 404,000	\$ 168,042	\$ 572,042
2018		415,000	156,617	571,617
2019		427,000	144,871	571,871
2020		439,000	132,790	571,790
2021		451,000	120,375	571,375
2022-2026		2,449,000	403,364	2,852,364
2027-2028		1,640,000	69,470	1,709,470
		<u>\$ 6,225,000</u>	<u>\$ 1,195,529</u>	<u>\$ 7,420,529</u>

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 8 – SPECIAL ASSESSMENTS

Fire Assessments:

In 2005, the City instituted a fire assessment in order to assist the City in paying for the fire contract. Starting in 2006, the assessments were on the tax roll with Broward County. During the fiscal year ended September 30, 2016, the City collected approximately \$2,135,694 of fire assessments.

Solid Waste Assessments:

The annual assessment for Solid Waste and Recyclable Materials management, collection and disposal services, facilities, and programs was levied on City properties for fiscal year commencing October 1, 2010 and future fiscal years. This levy is part of a franchise agreement and all fees collected are processed through the City. During fiscal year ended September 30, 2016, the City collected approximately \$376,000 in franchise revenue.

NOTE 9 – DEFINED CONTRIBUTION PENSION PLAN

On February 22, 1989, the City Commission passed Ordinance No. 89-1 authorizing and establishing the first ICMA 401(a), a money purchase plan, which is a defined contribution pension plan. On March 1, 2000, the City Commission adopted two additional ICMA 401(a) plans for middle management and the City Manager. Ordinance 2000-04 authorized and adopted those Plans. Historically, the City Commission authorized amendments to contributions through the budget-adopting ordinance. In the case of the City Manager, contributions would be determined through contractual arrangements, which would be adopted by resolution of the City Commission.

A defined contribution pension plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account and the returns earned on investments of those contributions. Substantially all permanent, full-time employees participate in this Plan.

City contributions and related earnings are 20% vested after one year of service and the remaining City contributions vest at 20% each year until fully vested after five years. Contributions made by an employee vest immediately. Employees must complete ICMA forms within 90 days of termination to elect the method by which they will receive their distribution of funds held in trust. In case of a death, the beneficiaries must complete forms for the distribution of funds held in trust. Upon death or retirement due to disability, the employee is immediately vested at 100%.

The total payroll for all employees and payroll for employees covered by the Plan for the current year were \$5,000,145 and \$3,110,108 respectively. During the year, the City was required to contribute 10% of each eligible general employee's gross earnings and 10% of management employee's gross earnings with a mandatory employee contribution of 8%. The City is also required to contribute 17% of the City Manager's salary. The City's contribution to the plan as of September 30, 2016, was \$325,090 which is 100% of the required contribution. Total forfeitures of \$10,380 were processed for the defined contribution plan during 2016.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 10 – DEFINED BENEFIT PENSION PLAN

Plan Description:

The Police Officers Retirement Plan is a single-employer defined benefit pension plan created by the City in accordance with Florida Statutes, Chapter 185. The City established the Plan pursuant to City Ordinance Number 2004-09 (as amended) in February 2004. The Plan is administered by a board of trustees, which covers all police officers employed by the City or as a Broward County Deputy Sheriff who elected membership at the Plan adoption date.

Plan members with at least 10 years of credited service and age 55, or Plan members with at least 20 years of credited service, regardless of age, are eligible for normal retirement benefits. Plan members with at least 10 years of credited service and age 50 are eligible for early retirement benefits. In the case of early retirement, the participant's benefit is reduced by 3% for each year by which the participant's early retirement age precedes the normal retirement age. A participant becomes fully vested upon attainment of 10 years of credited service. Pursuant to City Ordinance Number 2011-11, the sole remaining member of the Plan was permitted to retire without any penalty for early retirement based on existing credited service as of June 15, 2011.

The monthly retirement benefit is equal to the number of years of credited service multiplied by 3% of average monthly earnings. Average monthly earnings are determined based on earnings during the highest consecutive 5 years out of the 10 years immediately preceding the determination. Earnings include total cash remuneration, but limit overtime to 300 hours per year and exclude payments for extra duty or special detail work performed on behalf of a second party. At September 30, 2016, the Plan had three participants receiving service retirement benefits and one participant receiving disability retirement benefits. There were no actively employed participants.

Net Pension Liability:

Management has evaluated the Net Pension Liability and has concluded that it is immaterial to the financial statements. Therefore, the Net Pension Liability and related disclosures have been excluded from these financial statements.

Funding Policy:

Funding for the Plan consists of contributions from members, the City of Parkland, the Broward Sheriff's Office, and the State of Florida. Plan members are required to contribute 5% of their annual covered compensation. The City is required to contribute an amount determined by the Plan's actuaries at least once every three years. Additionally, the State of Florida makes contributions from locally authorized insurance premium surcharges. During the year ending September 30, 2016, the State of Florida contributed \$281,953 to the Plan.

The City's external auditors did not audit the financial statements of the Police Officers Retirement Plan, the fiduciary fund of the City. Other auditors were engaged, who audited the stand-alone financial report. Copies of the report can be obtained from the pension board by calling the Police Pension Administrator at 954-720-8910.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)

Actuarial Methods and Significant Assumptions:

Actuarial methods and significant actuarial assumptions used to determine the annual required contributions for the two most recent actuarial valuations are presented below:

Valuation date	October 1, 2014	October 1, 2015
Actuarial cost method	Entry age normal	Entry age normal
Amortization method	Level dollar, closed	Level dollar, closed
Remaining amortization period	9 years	5 years
Asset valuation method	Market value	Market value
Actuarial assumptions:		
Investment rate of return	7.00%	7.00%
Projected salary increases	N/A	N/A
Cost-of-living adjustments (COLA)	2.00%	2.00%

NOTE 11 – DEFERRED COMPENSATION PLAN

The City also offers its employees a deferred compensation plan created in accordance with Internal Revenue Code 457. The Plan is available to all full-time employees and permits them to defer a portion of their salary until future years. Such deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

Under the provisions of IRC Section 457, the City modified its Plan documents and transferred all Plan assets to custodial accounts. In the opinion of City Management, this custodial account structure removes any presumption of fiduciary responsibility. Because City Management has little administrative involvement with the Plan and does not perform any investing functions for the Plan, the Plan assets are not included in the City's financial statements.

NOTE 12 – OTHER POSTEMPLOYMENT BENEFITS

Plan Description:

The City provides a single employer defined benefit health care plan to all of its employees. The plan allows its employees and their beneficiaries to continue to obtain health and dental benefits upon retirement. The normal retirement age for City employees is age 62. The benefits of the plan are in accordance with Florida Statutes, which are the legal authority for the plan. The plan has no assets and does not issue a separate financial report.

Retirees of the City pay an amount equal to the actual premium for health insurance charged by the carrier, but there is an implied subsidy in the healthcare insurance premium for retirees because the premium charged for these retirees is the same as the premium charged for active employees, who are younger than retirees on average. This implied subsidy constitutes other postemployment benefits (OPEB) as defined by GASB Pronouncements.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 12 – OTHER POSTEMPLOYMENT BENEFITS (Continued)

Funding Policy:

The City does not directly make a contribution to the plan on behalf of retirees. Retirees and their beneficiaries pay the same group rates as are charged to the City for active employees by its healthcare provider. However, the City's actuaries in their actuarial valuation, calculate an offset to the cost of these benefits as an Employer Contribution, based upon an implicit rate subsidy. This offset equals the total age-adjusted costs paid by the City or its active employees for coverage of the retirees and their dependents for the year net of the retiree's own payments for the year. The Plan has never had any employees that continued to obtain health and dental benefits upon retirement.

Annual OPEB Cost and Net OPEB Obligation:

The City's annual other post employment benefit (OPEB) cost is calculated based on the annual required contribution (ARC). The City has elected to calculate the ARC and related information using the alternative method permitted under GASB pronouncements for employers with plans that have fewer than 100 total members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and to amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The annual OPEB cost and the net OPEB obligation for the City for the current year and the related information are as follows:

Required contribution rates:

	Pay-as-you-go
Employer	N/A
Plan members	N/A
Annual Required Contribution (ARC)	\$ 2,449
Interest on Net Unfunded OPEB Obligation	787
Adjustment to Annual Required Contribution	<u>(1,305)</u>
Annual OPEB cost	1,931
Contributions made	<u>-</u>
Increase in net OPEB obligation	1,931
Net OPEB obligation, beginning of year	<u>22,468</u>
Net OPEB obligation, end of year	<u><u>\$ 24,399</u></u>

The Plan has never had any employees that continued to receive health and dental benefits upon retirement. The City has never (1) made payments of benefits directly to or on behalf of a retiree or beneficiary, (2) made premium payments to an insurer, or (3) irrevocably transferred assets to a trust, or equivalent arrangement, in which Plan assets are dedicated to providing benefits to retirees and beneficiaries in accordance with the terms of the Plan and are legally protected from creditors of the employer or plan administrator. Consequently, the City has never made a contribution in relation to the annual required contribution.

Trend Information:

History of Net OPEB Obligation				
Fiscal Year	Percentage of			
	Annual OPEB Cost	Annual OPEB Contributed	Net OPEB Obligation	
9/30/2014	\$ 1,974	0.00%	\$ 20,492	
9/30/2015	1,976	0.00%	22,468	
9/30/2016	1,931	0.00%	24,399	

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 12 – OTHER POSTEMPLOYMENT BENEFITS (Continued)

Funded Status and Funding Progress

The funded status of the plan as of most recent actuarial valuation date was as follows:

Actuarial valuation date	9/30/2013
Actuarial accrued liability	\$ 12,853
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 12,853
Funded ratio	-
Covered payroll	\$ 5,000,145
UAAL as a percentage of covered payroll	0.26%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are comparable with past expectations and new estimates are made about the future. The schedule of funding progress presented as required supplementary information following the notes to the financial statements, will present multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Because the fiscal year ended September 30, 2010, was the year of implementation of GASB 45, and the City elected to apply the statement prospectively, only two actuarial valuation dates are presented in the schedule at this time. The City has not contributed assets to the plan at this time and has updates performed during the years between valuations.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the City and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Significant methods and assumptions as of the latest actuarial valuation:

Actuarial valuation date	9/30/2013
Actuarial cost method	Entry Age
Amortization method	Level Percentage of Payroll
Amortization period	20 years, open
Actuarial value of Assets	\$0
Actual assumptions:	
Discount rate	3.5%
Inflation rate	3.5%
Investment return	0.0%
Age adjustment factor	2.047
Payroll growth rate	2.0%

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 13 – COMMITMENTS AND CONTINGENCIES

Litigation:

Various suits and claims arising in the ordinary course of operations are pending against the City. While the ultimate effect of such litigation cannot be ascertained at this time, in the opinion of legal counsel, the City has sufficient insurance coverage to cover any claims and/or liabilities, which may arise from such action. The effect of such losses would not materially affect the financial position of the City or the results of its operations.

Grants:

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. In the opinion of management, future disallowances of grant expenditures, if any, would not have a material adverse effect on the City's financial condition.

Police Services Agreement:

The City previously entered into an agreement with the Broward Sheriff's Office (BSO) to provide professional law enforcement services through September 30, 2009, with an option to renew for an additional five years through September 30, 2014, which the City exercised. This agreement was extended for another year to September 30, 2015, renewable for one five year term to September 30, 2019 which the City and BSO agreed to. Under this agreement BSO provides all necessary labor, supervision, equipment, vehicles, communication facilities, and supplies necessary for the purpose of performing the services. In accordance with the agreement, the City provides a police facility, major improvements and repairs for which are the City's responsibility.

BSO pays for all utility costs including, but not limited to, telephone, electric, and water services. For the year ended September 30, 2016, the City had expenditures of approximately \$6,629,000 relating to this agreement.

Emergency Medical and Fire Protection Services:

Effective October 1, 2010, the City entered into a new interlocal agreement with the City of Coral Springs to provide emergency medical and fire protection services through September 30, 2015. The agreement was extended to September 30, 2020 and except for the expiration of the agreement, the agreement may only be terminated for cause by either part. Under the terms of the agreement, Parkland shall provide spacing and housing for all necessary services and is responsible for major repairs as well as utility costs. The City of Coral Springs is responsible for maintaining the aforementioned facilities.

Baseline costs are \$5,432,808 for the fiscal year ended September 30, 2015, and annual increases will be determined based on the same percentage as the increases in the Coral Springs' Fire Fund personnel cost, benefit costs, and operating expenses, subject to certain limits. For the year ended September 30, 2016, the City paid costs of approximately \$5,489,000 relating to this agreement.

Encumbrances:

Appropriations in governmental fund types are encumbered upon issuance of purchase orders for goods and/or services. Even though encumbered appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward, and the following year's appropriations are likewise encumbered. At September 30, 2016, the City had encumbrances of \$2,823,471 in the Capital Projects Fund and Park and Community Improvements Fund which is primarily made up of construction commitments for the Pine Trails Park construction, Quigley Tennis Center design and construction, Ranches water main construction, and traffic signal installation.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 14 – RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance. The City is also covered by Florida Statutes under the Doctrine of Sovereign Immunity which effectively limits the amount of liability of municipalities to individual claims of \$200,000 and \$300,000 for all claims relating to the same accident. During the year ended September 30, 2016, the City had coverage for property and automobile insurance up to a maximum of \$1,000,000 per occurrence. The City has not significantly reduced insurance coverage from coverage in the prior year. There were no settled claims which exceeded insurance coverage during the past three fiscal years.

NOTE 15 – STABILIZATION AGREEMENT

Many governments have formal arrangements to maintain amounts for budget or revenue stabilization, working capital needs, contingencies, or emergencies. During the annual budget process (Ordinance No. 2016-18), the City has adopted a stabilization agreement that provides for an operating reserve of 25% of the General Fund operating budget less transfers and contingency. The stabilization reserve can be utilized for economic stabilization for unforeseen economic conditions and potential natural disasters that could affect the City. As of September 30, 2016, the General Fund reported fund balance committed to the stabilization agreement in the amount of \$7,144,000.

NOTE 16 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

A brief description of new accounting pronouncements that might have a significant impact on the City's financial statements is presented below.

In June 2015, the GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The primary objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement is effective for the fiscal year ending September 30, 2017. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement is effective for the fiscal year ending September 30, 2018. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand (1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and (2) the impact those abatements have on a government's financial position and economic condition. This Statement is effective for the fiscal year ending September 30, 2017. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 16 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (Continued)

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. This Statement is effective for the fiscal year ending September 30, 2017. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In June 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. This Statement is effective for the fiscal year ending September 30, 2017. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. This Statement is effective for the fiscal year ending September 30, 2018. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In March 2016, the GASB issued Statement No. 82, *Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73*. This Statement clarifies that payments that are made by an employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements should be classified as plan member contributions for purposes of Statement 67 and as employee contributions for purposes of Statement 68. It also requires that an employer's expense and expenditures for those amounts be recognized in the period for which the contribution is assessed and classified in the same manner as the employer classifies similar compensation other than pensions (for example, as salaries and wages or as fringe benefits). This Statement is effective for the fiscal year ending September 30, 2017. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants.

CITY OF PARKLAND, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 16 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (Continued)

Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO. This Statement will enhance comparability of financial statements among governments by establishing uniform criteria for governments to recognize and measure certain AROs, including obligations that may not have been previously reported. This Statement also will enhance the decision-usefulness of the information provided to financial statement users by requiring disclosures related to those AROs. This Statement is effective for the fiscal year ending September 30, 2019. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. This Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This Statement is effective for the fiscal year ending September 30, 2020. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. This Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). This Statement is effective for the fiscal year ending September 30, 2018. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

CITY OF PARKLAND, FLORIDA
NOTES TO BUDGETARY COMPARISON SCHEDULE
SEPTEMBER 30, 2016

NOTE 1 – BUDGETS AND BUDGETARY ACCOUNTING

Budgets and Budgetary Data:

The City adopts an annual operating budget, which is employed as a management control device, for the General Fund and Capital Projects Fund. These budgets, as adopted or amended during the year by the City Commission, are prepared on a modified-accrual basis, excluding on-behalf payments from the State for Police Officers pension. During the year, all legal requirements with regard to budget adoption were met.

Process of Adoption:

1. On or about August 1, the City Manager submits a proposed operating budget for the coming fiscal year to the City Commission.
2. During August, the City Commission holds workshops, which are open to the public, to review the proposed budget and determine the tentative budget.
3. During September, two public hearings are held for the purpose of presenting to and receiving input from citizens on the tentative budget and the proposed millage rate. At the second hearing, the annual budget is adopted, and the taxes are levied.

Period of Appropriation:

Unless encumbered by a purchase order, budgeted appropriations lapse at the end of each fiscal year. For budgetary control purposes, encumbrances are rolled over and adjusted to next year's budget.

Supplemental Appropriations:

If during the fiscal year revenues in excess of the original budgeted amounts become available, the City Commission may make supplemental appropriations. There were supplemental appropriations in the General Fund totaling \$6,336,390 during the fiscal year ended September 30, 2016 for funding capital projects and paying off the Florida Municipal Loan Council Obligation.

Level of Control:

The adoption of the budget by the City Commission constitutes the legal appropriation of the amounts specified therein as expenditures from the appropriate governmental fund. The amount of the appropriation cannot be exceeded unless the City Commission has approved a supplemental appropriation. Budgetary control of expenditures is maintained at the departmental level. A departmental budget cannot be exceeded without the approval, by motion, of the City Commission at a public meeting. The City Manager may authorize a budget adjustment among the various line items within a department, as long as the total budget for the department does not change.

CITY OF PARKLAND, FLORIDA
NOTES TO BUDGETARY COMPARISON SCHEDULE
SEPTEMBER 30, 2016

NOTE 2 – BUDGET RECONCILIATION

Budget Reconciliation

The General Fund budget excludes on-behalf payments from the State for Police Officers pension. As a result the General Fund revenues and expenditures reported in the Statement of Revenues, Expenditures and Changes in Fund Balance – Budget to Actual differ from the revenues and expenditures reported on the GAAP basis. The differences are reconciled as follows:

<u>General Fund</u>	<u>Revenues</u>	<u>Expenditures</u>
Budgetary Basis	\$ 31,370,366	\$ 26,354,872
On-behalf payments for pension benefits	<u>281,953</u>	<u>281,953</u>
GAAP Basis	<u>\$ 31,652,319</u>	<u>\$ 26,636,825</u>

CITY OF PARKLAND, FLORIDA
SCHEDULE OF FUNDING PROGRESS – OTHER POST EMPLOYMENT BENEFITS
SEPTEMBER 30, 2016

Actuarial Valuation <u>Date</u>	Actuarial Value of Assets <u>(a)</u>	Actuarial Accrued Liability (AAL)- Unfunded AAL				Funded Ratio (a/b)	Covered Payroll (c)	UAAL as Percentage of Covered Payroll <u>((b-a)/c)</u>
		Entry Age (1) <u>(b)</u>	(UAAL) <u>(b-a)</u>	Funded Ratio (a/b)				
9/30/2010	\$ -	\$ 23,091	\$ 23,091	0.00%	\$ 3,632,459			0.64%
9/30/2013	\$ -	\$ 12,853	\$ 12,853	0.00%	\$ 5,000,145			0.26%

The schedule of funding progress presented above will present multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Because the fiscal year ended September 30, 2010, was the year of implementation of GASB 45, and the City elected to apply the statement prospectively, only two actuarial valuation dates are presented in the schedule at this time. In future years, required trend data will be presented. The City has not contributed assets to the plan at this time and obtains annual updates between valuation dates.

COMBINING FINANCIAL STATEMENTS

NONMAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECTS FUND

Infrastructure Replacement Fund - This fund is used to fund future capital expenditures as they relate to City facilities.

SPECIAL REVENUE FUNDS

Government Library Building Fund - This fund is used to account for the revenue and expenditure for the collection of impact fees for government buildings and the library.

Public Safety Improvement Fund - This fund is used to account for the revenue and expenditure for the collection of fire and police impact fees.

Law Enforcement Fund - This fund is used to account for revenues derived from the enforcement from the Florida Contraband Act. Expenditures are restricted to the purchase of law enforcement equipment.

Pine Tree Road Fund - This fund is used to account for the City's use of reserves that will be used to fund road construction.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and Members of the City Commission
City of Parkland, Florida

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Parkland, Florida, (the "City") as of and for the fiscal year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated March 24, 2017. Our report includes a reference to other auditors who audited the financial statements of the City of Parkland, Florida Police Officers Retirement Plan, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Honorable Mayor and Members of the City Commission
City of Parkland, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Parkland, Florida (the "City") as of and for the fiscal year ended September 30, 2016, and have issued our report thereon dated March 24, 2017. Our report includes a reference to other auditors. Other auditors audited the financial statements of the City of Parkland, Florida Police Officers Retirement Plan.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General.

Other Reports and Schedule

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant's Report on Compliance with the Requirements of Section 218.415 Florida Statutes. Disclosures in those reports, which are dated March 24, 2017, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City was incorporated on July 10, 1963 under Chapter 166 of the Florida Statutes.

Financial Condition

Section 10.554(1)(i)5.a., Rules of the Auditor General, requires that we report the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Annual Financial Report

Section 10.554(1)(i)5.b., Rules of the Auditor General, requires that we report the results of our determination as to whether the annual financial report for the City for the fiscal year ended September 30, 2016, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2016. In connection with our audit, we determined that these two reports were in agreement.

Other Matters

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our Management Letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and state awarding agencies, and applicable management of the City of Parkland, and members of the City Commission and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH THE REQUIREMENTS OF SECTION 218.415 FLORIDA STATUTES

Honorable Mayor and Members of the City Commission
City of Parkland, Florida

We have examined the City of Parkland, Florida, (the "City") compliance with the requirements of Section 218.415 Florida Statutes during the fiscal year ended September 30, 2016. Management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2016.
