### Class Description

Music Together is a research-based global music & movement program for children from birth to five years, and the grown-ups who love them. In our classes, children instinctively learn to sing in tune and maintain a steady beat, all while discovering their natural learning abilities through play!

- We provide a comprehensive curriculum along with take-home materials.
- Our program is supported by decades of research in both music education and child development.

Classes are not only enjoyable but also engaging, emphasizing education with active participation from parents.

## Age: 0-5yrs
