## Re-inspection Fee Policy

To cancel a scheduled inspection, call the building department between 7:30 and 8 AM

Note: Approved Plans and Permit Card and Previous Red Tag (if any) must be posted on the job-site for each inspection requested.

A Re-inspection fee may be placed on a rejection tag, at the discretion of the inspector, for any of the following reasons:

Florida Building Code, including the Broward County Administrative Provisions found in Chapter 1

Any	Specific Code Violation

It shall be assumed that the responsible individual(s) in charge of the work shall have themselves inspected the work and found it to be in compliance with applicable code requirements before the request for inspection or re-inspection is made. It is not the function of Building Department Inspectors to Supervise or Provide a Punch-list for a requested inspection as a substitute for the role of the licensed Contractor who obtained the permit.

In the event that a contractor wishes to have such re-inspection fee re-evaluated by the Building Official, it is our policy to have the inspector who placed the fee present for this discussion.

Re-inspection fee: a cost-recovery fee assessed at the time of a rejected scheduled inspection if, in the judgment of the inspector, the inspection cannot be completed due to errors or omissions by the contractor.
