**Application for Temporary Electrical Pole**

The property owner or General Contractor **AND** the Electrical Contractor of the property identified below must complete this application.

Request is hereby made to erect a free standing electrical service to provide temporary power for construction. This power may not be connected to any structure or unit without additional permits. It is acknowledged that approval of temporary power for this site is in no way a release of this property for permanent use or occupancy. It is further acknowledged that use of this property without proper authorization will result in an immediate disconnection of electrical service pursuant to the Florida Building Code. This connection and all related equipment must be removed prior to the final electrical inspection.
