APPROVED TREE SPECIES – Category 3

Understory Accent/Flowering

Category 3 - Understory/Accent	
Common Name	Botanical Name
Bitterbush	<i>Picramnia pentandra</i> *
Blolly	<i>Guapira discolor</i> *
Black Ironwood	<i>Krugiodendron ferreum</i> *
Cattley Guava	<i>Piscidium littorale</i> ○
Crabwood	<i>Gymanthes lucida</i> *
Guiana Plum	<i>Drypetes lateriflora</i> *
Ligustrum	<i>Ligustrum japonicum</i>
Pigeon Plum	<i>Cocoloba diversifolia</i> *
Madagascar Olive	<i>Noronhia emarginata</i>
Red Stopper	<i>Eugenia rhombea</i> *
Redberry Stopper	<i>Eugenia confusa</i> *
Simpson's Stopper	<i>Myrcianthes fragrans</i> *
Spanish Stopper	<i>Eugenia foetida</i> *
Wax Myrtle	<i>Myrica cerifera</i> *
Wild Cinnamon	<i>Canella winterana</i> *
Category 3 - Understory/Accent Flowering	
Common Name	Botanical Name
Bahama Cassia	<i>Senna bahamensis</i> var. <i>chapmanii</i> *
Bahama Strongbark	<i>Bourriera succulenta</i> *
Bahama Tabebuia (Dwarf White)	<i>Tabebuia bahamensis</i>
Bush Cassia	<i>Senna surrattensis</i>

Cinnecord	<i>Acacia choriophylla</i> *
Fiddlewood	<i>Citharexylum fruticosum</i> *
Jamaican Ebony Tree	<i>Brya ebenus</i>
Jamaican Caper	<i>Capparis cynophallophora</i> *
Jatropha	<i>Jatropha integerrima</i>
Lignum vitae aka. Wood of Life	<i>Guaiacum officinale</i>
Lignum vitae aka. Holy wood	<i>Guaiacum sanctum</i> *
Orange Geiger	<i>Cordia sebestana</i> *
White Geiger	<i>Cordia boissieri</i>
Wild Lime	<i>Zanthoxylum fagara</i> *

*Native to Florida ● Fruit-bearing

Note: Trees shall be a minimum of 6-8' planted height, 3-4' spread with a 1-1.5" caliper at time of installation (height, spread and caliper is characteristic of species and may vary and subject to adjustment).

Important: This list is provided as a convenience and is intended for Zones 9a to 10b. It is not to suggest any particular species for your permit or application. Not all nurseries and/or growers keep inventory of the tree(s)/palm(s) and plant species listed, and therefore availability could be a factor. Also, certain species may not be suitable for your specific site conditions. Please familiarize yourself and make plant selections based on this information. One should also consider the location surroundings, planting space, water requirements and desired function within the landscape and site.
